About NSE Academy

NSE Academy Ltd. (NAL) is a wholly-owned subsidiary of the **National Stock Exchange of India (NSE)**. NAL works towards empowering the BFSI sector with a pool of human resources with the right skills and expertise in each segment of the industry to provide quality intermediation to various stakeholders. NAL works with industry experts, academicians, universities, and other educational institutions to create and deliver capacity-building programs for next-generation BFSI professionals. NAL's flagship offerings are the **NSE Academy Certification in Financial Markets (NCFM)** modules.

About Anna University

Anna University was established on 4 September 1978 as a unitary type of University. This University is named after Late Dr. C.N. Annadurai, former Chief Minister of Tamil Nadu. It offers higher education in Engineering, Technology, Architecture, and Applied Sciences relevant to the current and projected needs of society. Besides promoting research and disseminating knowledge gained therefrom, it fosters cooperation between the academic and industrial communities.

In 2001, Anna University was converted to an affiliating type University by bringing together

all the Engineering colleges in the State of Tamil Nadu and was again reconverted to the unitary type in 2010. In 2012, Anna University was again converted to **an affiliating type of University** by bringing together all the Engineering Colleges in the State of Tamil Nadu under one umbrella to ensure uniform quality in engineering education.

Financial Markets is one of the most desired career destinations among young talent. The markets offer a wide range of opportunities in **investment banks, investment advisories, market infrastructure institutions, mutual fund companies, stockbroking companies, market intermediaries and channels, research and rating companies, fintech companies**, and the like.

Introduction: Financial Markets

Financial markets are the backbone of the global economy, contributing over 24% of the world's GDP. The financial markets in India - encompassing debt markets, equity markets, mutual funds, and derivatives - are vast, well-structured, rapidly evolving, and gaining prominence at a global level.

Recently in March 2022, the market capitalization of the Indian equity markets crossed the \$3 trillion mark, putting India at the fifth place in the world in terms of market capitalization. The derivatives markets in India have the highest trade volumes and have grown at about 32% CAGR over the last five years. The assets under management of the mutual funds in India have crossed \$500 billion, and have doubled within five years.

The financial markets in India are poised to grow steadily, fueled by growing demand, policy support, innovation, and digitization, making it **one of the most desired career destinations** among young talent.
