About Program

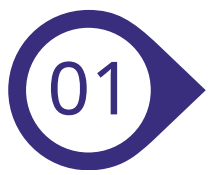

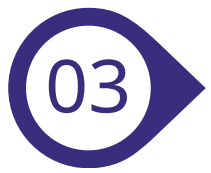

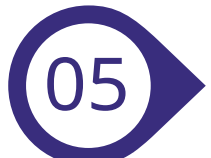

The program is designed to enable professionals especially from functional decision-making areas, such as sales, marketing, human resources, operation, production, and first-generation entrepreneurs to gain broad working knowledge of critical financial accounting and financial management concepts in an easy to understand manner. This will enable the professionals to make critical decisions especially with regard to financial statements, budgeting, new investment decisions and other business strategies for growth.

The program exposes the participants to the concepts, applications and practices of Financial Accounting and Financial Management in such a manner that even the participants having no prior exposure to the subject can understand and get a good grasp of the concepts. The managerial practices and techniques followed in the current Indian Legal and Corporate Environment in finance will be imbedded in the program. Awareness will also be created for the financial disclosure practices followed in India.

Program Objectives

The main objective of this program is to help participants decipher the financial concepts and theories. It will also help participants to understand the business implications of the decisions taken based on the numbers generated in the world of finance.

- 01 Understand the accounting cycle and reliability of the financial statements.
 - 02 Learn the implication of finance on various business actions and strategies.
 - 03 Learn how to analyze financial statements for decision making.
 - 04 Understand the behavior of costs and the significance of break-even point.
 - 05 Learn how to apply techniques to evaluate investment decisions.
- 

Why Do Professionals Prefer This Program?

It is relevant for managers across business functions to understand the language of finance for making informed business decisions.

- 01 Demystify Finance:** Simplify financial terms/ jargons for better financial planning.
- 02 Financial Communication:** Understand and speak the language of finance.
- 03 Financial Decision-Making:** Make informed and strategic financial decisions.
- 04 Risk Management:** Mitigate financial risks and safeguard the organization's financial health.
- 05 Budgeting and Forecasting:** Contribute meaningfully to strategic planning and growth initiatives.

"Finance for Non-Finance by NSE Academy is concise and application based course and I highly recommend it!"

The content is excellent, and the delivery of the subject makes the virtual class highly interactive. And the support Team is worth mentioning for the hassle free classes, assignments submissions and accessible for the assistance. Worth spending Sunday afternoon learning the concepts !!!

*-Garima Singh,
Chief Manager, HPCL*

Batch Profile

Functional Domain Distribution

Batch - 1 completed, it consisted of participants from diverse backgrounds with a wide range of experiences for enriched collaborative learning.

Participant Feedback

"It had been a very enjoyable series of classes, with a diverse set of students from different backgrounds, each bringing their perspectives from their respective domains. Our facilitator, had done complete justice in ensuring that people from non-finance backgrounds like me understand the essential thoroughly. It's amazing that we had full confidence, by the end of the course, to look at various sections of financial statements, analyze ratios, evaluate investment performances and give informed opinions on various financial scenarios."
